## CHEVEGEWELE AVEIN DEMORSE'S INVICORATING CORDIAL

TOR GENITAL BEBILITY, IMPOTENCY, INCONTI-NENCE, OR NOCTURNAL EMISSIONS, &c.—The as-tonishing success which has attended this invaluable medi-cine, for Loss of Muscular Energy, Physical Lassitude, and General Prostrution, or any of the consequences of youthful indiscretion, or, indulgence of the passion in riper years, ren-ders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands un-rivalled and alone. There is no other reliable remedy, or rivaled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRO-DUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses or evil practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact. This, however, is not the fact.

the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "It thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever resommend it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offerprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

CAUTION.—Ask for Dr. Morze's Cordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials, &c., and try only this.

TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solidary habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptems of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to Society.

from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated Individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating should reflect that a sound mind and bedy are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pilogrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melantholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the afflicted will find a skilful and honorable physician.

TAKE NOTICE.

TAKE NOTICE. TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise; but unless he did so, the affileted, especially strangers, could not fail to fall into the hands of those imprudent, boasting impostors—individ-uals destitute of knowledge, name, and character—pedlars, shoemakers, mechanics, &c., advertising themselves as phy-sicians; ignorant quacks, who keep you trifting month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertice, for he alone can cure you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

TO CURE A COLD, WITH HEADACHE AND SORE NESS OF THE BODY, take the CHERRY PECTORAL OR going to bed, and wrap up warm, to sweat during the night.

FOR A COLD AND COUGH, take it morning, noon, and evening, according to directions on the bottle, and the difficulty will soon be removed. None will long suffer from this trouble when they find it can be so readily cured. Persons afflicted with a seated cough, which breaks them of their rest at night, will find, by taking the CHERRY PECTORAL on going to bed, they may be sure of sound, unbroken sleep, and consequently refreshing rest. Great relief from suffering, and an ultimate cure, is afforded to thousands who are thus afflicted, by this invaluable remedy.

From its agreeable effect in these cases, many find themselves unwilling to forego its use when the necessity for it has ceased.

has ceased.

From two eminent Physicians in
FATETEVILE, TENN.: April 16, 1851.

SIR: We have given your CHERRY PECTORAL an extensive trial in our practice, and find it to surpass every other remedy we have for curing affections of the respiratory organs.

DRS. DIEMER & HAMPTON. TO SINGERS AND PUBLIC SPEAKERS this remedy

invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility

of the voice.

ASTHMA is generally much relieved, and often wholly cured, by Cherry Pectoral; but there are some cases so obstinate as to yield entirely to no medicine. CHERRY PECTORAL will cure them, if they can be cured.

BRONCHITIS, or irritation of the throat and upper portion of the lungs, may be cured by taking Cherry Pectoral in small and frequent doses. The uncomfortable oppression is soon relieved.

Rev. Doctor LANSING, of BROOKLIN, NEW YORK, states:

"I have seen the CHERRY PECTORAL cure such cases of
Asthma and Bronchitis as lead me to believe it can rarely

WHOOPING-COUGH may be broken up and soon cured by the use of CHERRY PECTORAL.

THE INFLUENZA is specifily removed by this remedy. Numerous instances have been noticed where whole families were protected from any serious consequences, while their neighbors, without the CHERRY PECTORAL, were suffering SALEM, OHIO, 11th June, 1851.

from the disease.

Salem, Ohio, 11th June, 1861.

Doctor J. C. Aver: I write to inform you of the truly remarkable effects of your CHERRY PECTORAL in this place, and in my own family. One of my daughters was completely cured in three days of a dreadful Whooping-Cound by taking it. Dr. Means, one of our very best physicians, freely states that he considers it the best remedy we have for pulmonary diseases, and that he has cured more cases of Croop with it than any other medicine he ever administered.

Our clergyman of the Baptist church says that during the run of Influenza here this season, he has seen cures from your medicine he could scarcely have believed without seeing.

Yours, respectfully,

J. D. SINCLAIR, Deputy Postmaster.

Prom the distinguished Professor of Chemistry and Maleri Medica, Bowdoin Osllege. I have found the CHERRY PECTORAL, as its ingredients show, powerful remedy for colds, and coughs, and pulmonary liseases.

PARKER CLEVELAND, M. D.

BRUNSWICK, Mr., February 5, 1847. DR. VALENTINE MOTT, The widely-celebrated Professor of Surgery in the Medi College, New York city, says: "It gives me pleasure to certify the value and efficacy of Ayer's Cherry Pectoral," which I consider peculiarly adapted cure diseases of the Throat and Lungs."

AC Cures of severe diseases upon the Lungs have been fected by Cherry Pecronal in such extreme cases as was effected by Oherany Perrona. In such extreme cases a warrant the belief that a remedy has at length been found that can be depended on to cure the Coughs, Colds, and Consumption which carry from our midst thousands every year. It is indeed a medicine to which the afflicted can look with confidence for relef, and they should not fail to avail themselves of it.

## AMERICAN TELEGRAPH.

[From the National Era.] LOVE'S ASSURANCE.

BY MISS PHERE CARRY.

Cluse, come closer, bending over This my weary, dying bed; Tell me, 0 my mortal lover.

Then wilt love me truly, dead Now my eyes may scarce behold thee Through their bitter, blinding rain, And my arms cannot enfold thee, Lying weak in helpless pain;

Yet, if faithful, I shall know it, Though thy lip make no replies, Loving truly, thou wilt show it In the love-light of thine eyes.

When thou turnest from my shrouded Paleness, to a fairer face. Let my image not be crowded Wholly from its olden place.

Ah! thou lov'of me, to conceal it Would surpass all mortal art; I can see it. I can feel it. Burning down into my heart.

Close, come closer, bending over This my weary, dying bed; Now I know, my mortal lover. Thou wilt love me truly, dead

#### Hydrophobia.

How wonderful that ages of discovery in the ciences of medicine and surgery should shed so little light upon the nature and cure of this awful malady! A Captain Williams, near Bridgeton, New Jersey, was bitten by a dog, not known to be mad, some time in June. Five or six weeks later he was taken ill. The narrative of Dr. Wales, the physician to whom he applied, dated Tuckahoe, July 24th," relates the tragic story. After stating that on Tuesday Capt. Williams,

feeling unwell, had called upon him for relief, he "As no apprehension was entertained at this time of the nature of the disease, an ordinary prescription was given him, and he continued on his way home, about three miles from this place. On the following day I was summoned to attend him, and, finding the symptoms by this time very unusual, with the water-dread strongly marked, a wild manner, and the case in every feature novel, the conviction flashed across my mind that it resembled hydrophobia more my mind that it resembled hydrophona more nearly than any other disease, and accordingly the question was propounded to the poor fellow, 'Have you been bitten by a dog at any recent period?' 'I have,' was his reply, with a look and manner which I can never forget, at the same time holding up his hand and pointing to the scars on each side of his thumb, near the body of his hand.

"Whatever of hope might have been present up to this period was at once dispelled by this in-terrogatory, even before any adverse opinion had been given, and his request was that he might be shot, importuning his father, who was present. to do so. His situation, from this time through the remaining few hours of his life, was horrible in the extrme. Fully, now, awake to the awful nature of his situation, from the consciousness of his terrible condition, he continued from this time, (about 6 o'clock p. m.) in a wakeful state—now conversing with tolerable composure upon such tropics as might be suggested, and anon thrown into the most painful muscular contortions, especially if any liquid were offered him, or even any allusion made to anything of the kind. The She is a Protestant, and grand-daughter to Euuntil about 8 o'clock the following morning. He seemed, indeed, from early dawn to this hour, a little more composed; had even forced down a placed under quarantine at Lisbon. small quantity of milk, although not without an

effort which was painful to behold.
"At or near 8 o'clock, however, the final struggle commenced. With a wild scream he besought the presence of his mother, his wife, and others of his relations and friends, and took a formal eave of them in a manner as rational as possible This was at once succeeded by paroxysms so vio-lent as to require his being firmly secured to the bed, in which situation the spasms increased fast in frequency and violence, with a rapid flow of saliva, at first frothy and viscid, but afterwards thinner, less tenacious, and made up of froth and a glairy fluid, which he sputtered forth forcibly while his strength continued, clutching at it with his hands sometimes, as if to tear it away from his mouth. His countenance was now at times shockingly distorted, and his brain frenzied, his teeth grating and gnashing in a terrible nanner. He continued in this awful state until about half-past 10 o'clock a. m., when, his power having so far failed as to prevent his dislodging the fast accumulating saliva, his throat gradually filled with it, and he expired.

"In the flitting and varied expressions which passed over the countenance of the unfortunate patient towards the close of life, there were exibited such appearances as would lead the be holder (without much stretch of the imagination) to suppose that the rabid creature, whose deadly poison was circulating through his system by it bite, had worked out the effect of transforming his very nature into its own-there was the rabid canine expression as fully expressed as the human features would in anywise allow of.

"Thus ended a tragedy which, in a practice of 25 years, I have seen nothing to compare with.

## The Steamboat Bill.

The Baltimore American says that a statement s going the rounds of the press that Mr. Seymour, chairman of the House Committee on Commerce, will not report the bill for the better security of passengers on board of vessels propelled has a despatch stating that in 18 counties heard in whole or in part by steam, because such strong representations are made against it by parties opposed to its adoption; but can scarce believe this to be so. The entire public voice of the country, backed by every consideration of justice and humanity, demands the passage of this or some other measure that may protect the traveller from a fate similar to that which lately befel the unfortunate passengers of the Henry Clay. The Committee on Commerce should refute the insinuation by reporting the bill at once, so that it may not be virtually defeated by an introduction at the heel of

Reid's majority ......1,002 Reid's gain in 18 counties, 114. As Reid's majority in the State in 1850 was 2,774, there can be no doubt of his election. In the above counties the Whigs have gained five members of the House, which, if there should be no further changes, would make a tie in that body. The Democrats had a majority of four in the last Senate, and so far there have been no changes.

In addition to the above, the Washington Union

Whigs had made a nett gain of three in the House, and the Senate would certainly be Democratic. [Second Despatch.] PETERSBURG, August 8 .- We have the follow-
